## GENERAL FACULTIES COUNCIL

The minutes to General Faculties Council are provided by JOHN NICOL, Secretary to the Council.

At the meeting of General Faculties Council on February 22, 1971, the following matters were considered:

### CHANGE IN REGULATIONS REGARDING FINAL EXAMINATIONS

Approval was given to the following recommendations:

**Release of grades.** Only the Registrar's Office is empowered to issue official statements of results or transcripts of record. However, department chairmen, or their delegates, are authorized and instructed to release final grades in first term courses by January 19, and in second term or full-year courses by May 15, in any manner that will protect the confidentiality of individual student grades. **Reappraisals.** A request for reappraisals of a final examination must be made by letter to the Registrar, or by completion of an application form in the Registrar's Office. This should be done by January 24 in the case of final examinations written at the end of the first term, by June 25, in the case of final examinations written at the end of the Winter Session, and within thirty days of the publication of results in the case of final examinations written during or at the end of the Summer Session.

**Release of final examination papers to students.** Departments subscribing to the

belief that there is educational value in permitting students to see their final examination papers after they have been marked, may arrange for this to be done. However, papers should not actually be released to students until the deadline for applications for reappraisal has passed, as an appeal cannot be entertained after the custody of the paper has been relinquished to the student.

### NEW MASTER'S PROGRAMS

The following recommendations were made to the Board of Governors:

(1) That the School of Household Economics be authorized to offer a graduate program in Clothing and Textiles and that the University Planning Committee establish a need for these courses in Canada before they are given a priority rating within our financial structure.

(2) That, concerning the request for permission to offer the master's degree in Family Studies, the Division of Family Studies of the School of Household Economics be permitted to offer the master's program in Family Life Education and in related practical and applied aspects of the family.

(3) That the School of Library Science be empowered to offer the MLS degree starting September, 1971.

Evening Credit courses on campus which have been administered by the Evening Credit Program office will now be administered by faculties, schools, and departments. Formerly, the teaching of such courses was not counted in calculating staff for faculties and departments but it now will be. Formerly, staff were paid an additional honorarium which will be discontinued. Departments which have in the past provided enough courses, and have undertaken to continue, have been allocated staff positions to cover the increased load.

Students formerly registered in the Evening Credit Program will now register as part-time students. Course fees will remain the same (\$135 per course for students registered in the Faculties of Arts, Education, and Science, and \$170 for students registered in the Faculty of Graduate Studies). In the past any student who had paid full fees and wished to take an Evening Credit course was also charged the course fee mentioned above, but with integration this additional charge will be discontinued. Students may preregister in late afternoon and evening credit courses in person or by mail up to August 16. After this date they must register in person in the manner and at the times of regular registration.

Integration will permit co-ordinated planning of day and evening offerings. Because the on-campus Evening Credit Program had been growing more rapidly than the daytime program, the anticipated staffing difficulties should be overcome by departments being able to plan for late afternoon and evening degree credit courses and to count the increased teaching load so generated in staffing. A number of departments are now planning an integrated and extended day, late afternoon, and evening credit program.

For the transition year the Evening Credit Program calendar will include the on-campus courses.

The off-campus program, with 27½ courses at 20 different off-campus centres will continue as a responsibility of the Evening Credit Program office.

## INTEGRATION OF ON-CAMPUS EVENING CREDIT PROGRAM

*The following statement has been prepared by S. C. T. CLARKE, Director of the Summer Session and Evening Credit Program.*

The General Faculties Council and the Board of Governors decided in the summer of 1970 that the on-campus evening credit program should be integrated into the general offerings of the faculties and schools, commencing in September, 1971. The crisis in University finances caused an agonizing reappraisal of this decision but it has now been decided to proceed.

## POLLUTION MATERIALS COLLECTION

The Department of Extension has initiated a collection of books, articles, and newsletters on the general subject of pollution. It is housed in the Adult Student Centre in Corbett Hall, 82 Avenue and 112 Street, and is open daily Monday to Friday from 9 a.m. to 5 p.m. and in the evenings Monday to Friday from 6 to 9 p.m.

The collection contains from 50 to 60 hardback books on all aspects of pollution, plus pamphlets on government Acts such as the Clean Air Act. Approximately 400 articles on air, water, people, coal, antibiotic, chemical, noise and pesticide pollution have been collected, in addition to a number of papers on the Peace-Athabasca Delta. Binders have been compiled on SPEC, STOP, PROBE, and the Edmonton Anti-Pollution Society, and these include the newsletters and information letters from these organizations. Of particular interest to Edmontonians is the binder on pollution in the city. Several hundred more books and articles on all phases of pollution have been ordered and will be arriving shortly.

A \$2 per year membership in the Adult Student Centre entitles one to the use of the pollution collection as well as the Centre's other materials, including audio-visual materials.

Additional information is available from the Department at 439-2021, extension 36.

## PEOPLE

■ L. C. GREEN, University Professor and member of the Department of Political Science, gave a talk on the prospects of the UN at The University of Calgary, sponsored by the United Nations Association. Professor Green has also been invited to participate in a symposium on the law of human rights in Tel Aviv, in July.

■ PATRICIA HAYES, Lecturer in the School of Nursing, was recently a guest speaker at an Obstetrical Workshop in Fort Saskatchewan. The workshop was sponsored by the In-Service Education Committee of Fort Saskatchewan General Hospital and was open to all nursing and medical personnel.

■ RUTH E. MC CLURE, Director of the School of Nursing, and SHIRLEY M. STINSON, Associate Professor in the School of Nursing and the Division of Health Services Administration, attended the first National Conference on Research in Nursing Practice in Ottawa. Dr. Stinson, who is the Alberta representative to the Canadian Nurses' Association Committee on Research, chaired the final session.

■ J. JAMESON BOND, Director of the Boreal Institute, recently visited the Institute for

Northern Studies at the University of Saskatchewan in Saskatoon, where he gave two lectures on leadership and local government in the North.

■ J. A. JACOBS, Director of the Institute of Earth and Planetary Physics, was invited to attend the opening of the Geomagnetic Research Laboratory in St. John's, Newfoundland. Afterwards he lectured at Memorial University in that city, and at Dalhousie University in Halifax.

■ F. A. SEYER, Associate Professor of Chemical and Petroleum Engineering, acted as a discussion leader at the 1971 Engineering Foundation Conference, which was held in Pacific Grove, California during February.

■ MADELEINE MONOD and KENNETH JACKNICKIE, of the Department of Secondary Education, attended the North-Peace River Convention in February. Mme. Monod gave a demonstration with pupils of Grade Ten French, leading them from the oral description of a picture to the written form, and gave a talk on the elements involved. Professor Jacknickie spoke to teachers of elementary science on the problems of evaluation in the new elementary science program.

## VISITORS

■ F. H. KNELMAN, Chairman of the Humanities of Science Department at Sir George Williams University, presented a joint seminar to the Departments of Zoology and Chemical and Petroleum Engineering.

■ R. A. GALLOP, Head of the Department of Food Science at the University of Manitoba, presented seminars to the Department of Chemical and Petroleum Engineering and the Department of Food Science. The latter department was also visited by R. P. A. SIMS, Director of the Food Research Institute at the Canada Department of Agriculture's central experimental farm in Ottawa.

## NOTICES

### ABORTION SURVEY

A survey of the psychological effects resulting from legal or illegal abortions is being conducted as a class project by students in Psychology 202 at Collège Universitaire Saint-Jean. Women whose pregnancies have been terminated by abortions are asked to assist with the survey by answering a questionnaire over the telephone. All responses will be kept confidential. Survey telephone numbers are 489-3749 and 454-2862.

### FOREIGN STUDENTS' CONFERENCE

The "1971 International Conference on Foreign Student Affairs" will be held at the University of British Columbia, May 11 to 14. It will be the first of its kind, and the theme

is "Seeing Ourselves as Others See Us." It is hoped that between 200 and 300 students will attend to facilitate a three-way communication between overseas students, Canadian and American students, and university staff concerning difficulties in adapting to the academic and social demands of life in Canada and the USA. The organizers are hoping that new and stimulating ideas will solve some problems and enhance future orientation programs for international students.

Work groups will be formed, each to include at least one Canadian, one American, and one foreign student. About 70 group convenors will be trained to assist these groups and skilled students may like to volunteer for such training. The registration fee is \$17.50 and room and board for the five days will be \$50 (\$6.50 per day). All those who would like to participate in any way are asked to call DAVID GUE, Foreign Student Adviser, at 202 University Hall, 432-4145.

## PARIS AMERICAN ACADEMY

The Academy is accepting applications for the sixth season of its "Summer in France" program, designed for adults, teachers and students, which will run from July 1 to August 12. Credit is given by many colleges and universities in the United States and Canada for the course, which can be taken in six fields: music, dance, French, art history, theatre, or painting. Credit is assigned on the basis of resumes by individual professors and the Director of the Academy. There is no grading system, and each student must consult his own school about crediting procedures. The fee of \$645 includes the course of study, lodgings with breakfast, cultural tours, and excursions. A visit will be made to the Festival of Music and Art in Nice. Weekend trips may be taken at extra cost. Professional counselling will be available throughout the session. Detailed information may be obtained from JACQUELINE OGG, Associate Professor of Drama, 439-7308.

## INTERCHANGE ON CKUA

CKUA broadcasts a daily public affairs commentary at 7:05 a.m. and 2:45 p.m. Monday to Friday. Members of the University community are invited to contribute talks of three to five minutes on any topical issue. These may be a general observation, a specific viewpoint on a current event or a trend in society, a case for a change in public policy, or a response to some proposed change. The content of the commentary and its presentation should stimulate constructive thinking and bring about better understanding among citizens, better social relations, or a better environment. Scripts should be forwarded to Interchange, CKUA, Alberta Block, Edmonton 14, prior to recording so that

content may be reviewed, and edited, if necessary, and confirmation given about arrangements to record them. Phone numbers and an appropriate time to call should be included on the script.

CKUA will pay \$10 for each commentary broadcast, contributions being accepted on the basis that copies may be made available to interested persons. Contributors are encouraged to prepare several commentaries, on different topics, and occasionally as a "part I" and "part II" of the same topic, and to record these in one session at CKUA's recording room on the sixth floor of 10526 Jasper Avenue, 422-5161.

#### UNIVERSITY CHALLENGE

The University of Alberta were successful in their first round of this television program, beating the Regina Campus of the University of Saskatchewan. They are to meet Victoria College of the University of Toronto next and will go on to meet three other teams if successful. The first program will be seen in Edmonton on March 28, and the programs will continue each week thereafter until the team is beaten. Team members are: JOHN MASON, MAT YEDIN, STEVE WHITNEY and TOM TASCHUK. MRS. JOAN MASON of the Comptroller's Office is the team coach.

#### EXTENSION COURSES

A management seminar on "Small Business and the Computer" will be held March 26 and 27 from 9 a.m. to 4:30 p.m. each day. Seminar leaders will be A. E. GOURLEY, a chartered accountant specializing in the commercial application of computers, and W. B. MC MINN, a partner in Woods Gordon and Company. The businessman can examine the possibilities of profitably using the computer, and receive practical suggestions about introducing data processing into his operation. The registration fee is \$80 which includes course materials and lunch each day at the Faculty Club.

An Arctic Summer School on the geology, geography, ecology, sociology and anthropology, and engineering factors of the North will be held this summer from July 11 to 30. Arranged and organized by the Boreal Institute and the Department of Extension with the co-operation of the Government of the Northwest Territories, the summer school will provide background information for senior and middle management people from private industry and government on which they may base economic decisions. Instructors will be from industry, from government, and from Canadian universities. Participants will leave Edmonton July 10 by jet to Inuvik. Accommodation in Inuvik will be provided in the Department of Education's residential centre, Grollier Hall. The course fee is \$820 which includes instruction, materials, lodging,

and meals. The return air fare is \$238, a reduced fare resulting from a group booking.

Additional information on both courses is available from the Department of Extension, 439-2021.

#### VISUAL COMMUNICATIONS SEMINAR

A Visual Communications seminar and workshop will be held on Tuesday and Wednesday, March 16 and 17 in rooms 164 and 165 of the Education Building. Talks will be given by: WALTER HARRIS of the Department of Chemistry, discussing the selection of material for slide presentations (10 a.m. March 16); JAMES A. SHAW, of the Department of Extension, speaking on physical facilities for effective visual communication (2 p.m. March 17); KENNETH BOWERS of the Faculty of Education's Audio Visual Centre, considering some aspects of visualization on the overhead projector (3 p.m. March 17), and T. K. MILLER of Scott Graphics, Toronto, discussing the philosophy of communications (4 p.m. March 17).

Workshop sessions will be continuous from 9 a.m. to 9 p.m. on both days and will stress presentation, as well as preparation. Mr. Miller will co-ordinate these activities in addition to speaking briefly on visual communications and overhead projector utilization.

Anyone working with visual communications techniques is encouraged to participate. No charge will be made. For further information call G. T. WORMSBECKER, Graphics Division of Technical Services at 432-3461.

#### LIBRARIES AND POLITICS

MRS. LURA CURRIER, public library consultant with the Washington State Library, and lecturer at the School of Librarianship of the University of Washington, will be the guest of the School of Library Science from March 29 to 31. At 8:15 p.m. on the evening of March 30, Mrs. Currier will deliver the School's Third Annual Lecture. Her topic is "The library in the political scene today." Following the lecture in Room 129, Education Building, Mrs. Currier will be the guest of honor at a reception in the School of Library Science.

#### READING SEMINAR

A reading seminar, sponsored by the International Reading Association, Edmonton District Local Council, is to be held at The University of Alberta, Saturday, March 27, in the Henry Marshall Tory Building. The keynote speaker will be MARGARET J. EARLY, Professor of Education, and Associate Director of the Reading and Language Arts Centre, Syracuse University, Syracuse, New York. Dr. Early will address the seminar at 9 a.m. on "The Object is Learning," and at 2:30 p.m. on "The Pleasure Principle." FRANK GREENE, Professor of Education at

McGill University, will speak at 3:30 p.m.

There will be sectional meetings, and topics for discussion will include: pre-school reading readiness; multiple approaches to reading; integrated language arts program; junior high school reading; books and materials; and the multi-media approach to the teaching of literature among others.

The deadline for registration is March 19. Applications should be sent to JOHN W. SMITH, Lansdowne School, 12323 - 51 Avenue, Edmonton 70, with the fee \$6 (or \$9 with luncheon) for members; \$7 (or \$10 with luncheon) for non-members. Luncheon will be at the Faculty Club at 11:45 a.m.

#### ROCK MECHANICS CONFERENCE

A conference sponsored by the fourth Canadian Symposium on Research in Tectronics and the seventh Canadian Symposium on Rock Mechanics will be held in Lister Hall, March 25 to 27. Its title is "Applications of Structural Geology to Rock Mechanics Problems," and speakers from industry, government, and universities in Canada, America, and Great Britain will be making contributions to the five major themes: "In situ stresses," "Role of effective stresses in earth behaviour," "Structural mapping and prediction of engineering properties in rock masses," "Case histories in bedded deposits," and "Case histories in other rocks."

Registration forms and further information may be obtained from H. A. K. CHARLESWORTH, Department of Geology, 432-3267.
